10b). Resolution on treatment of the Company's profit or loss based on the adopted balance sheet

The Board proposes that no dividend be paid in respect of the financial year and that the net income for the year and the retained earnings, together amounting to SEK 4,039,480,717, be carried forward.

12. Resolution on the Board's proposed guidelines for remuneration payable to senior executives

On April 23, 2024, the AGM resolved to approve the Board's proposed guidelines on remuneration to senior executives. The AGM is required to vote annually on a resolution to approve such guidelines. The Board therefore proposes that the 2025 AGM approve the Board's proposed guidelines on remuneration to senior executives.

The principal content of the proposal is as follows:

- The persons concerned by the guidelines consist of the CEO and other members of the Group Leadership Team.
- The guidelines shall be based on the remuneration principles in the State's ownership policy, that was approved on February 20, 2025.
- The total remuneration for senior executives shall be market-based, well-balanced, competitive, capped, reasonable and fit-for-purpose, and shall be in keeping with sound ethics and a healthy corporate culture; it shall also ensure that the Company and the Group can attract and retain competent employees, which advances the Company's business strategy and long-term interests and serves to ensure a sustainable organization. This shall also function as a guide to total remuneration to other employees, which the CEO is required to account for annually in a separate report to the Board.
- The remuneration to the CEO and other senior executives in the PostNord Group, who are employed in Sweden, mostly consists of a fixed cash monthly salary. In addition, individual defined-premium pension agreements are contracted, in which the premium will amount to no more than 30 percent of the fixed annual cash salary. The required insurance policies are contracted within the scope of this premium.
- The retirement age for employees in Sweden shall comply with the general retirement age applicable at any time. For senior executives employed under Norwegian labor law, the collective bargaining pension plan for the Norwegian company applies, and the retirement age is 70 years. For senior executives employed in Denmark, a pension corresponding to 10 percent of the agreed monthly salary is included. The retirement age is in line with Danish legislation.
- The notice period for all senior executives concerned by these guidelines is six months.
- Severance pay shall be paid until no later than the agreed pensionable age and never longer than to the general retirement age applicable at any time and will be paid for no more than twelve months.

- The guidelines have been prepared by the Board, whereby salary- and employment terms for the Company's employees have been taken into account. The guidelines shall be subject to review every year. The CEO and the other senior executives concerned by the guidelines shall not participate in the preparation of, or decision regarding, remuneration structures and remuneration levels to the extent that they are directly concerned by these issues.
- The Board may resolve to depart temporarily from any of the above-mentioned principles, in entirety or in part, should there be any particular reasons to do so and should deviations be necessary in order to meet the long-term requirements and sustainability of the Company or to ensure the Company's economic viability. In such a case, the Board shall report the deviation and the reasons for such deviation.
- The Board shall compile a report annually detailing remuneration paid and due for payment that is covered by the guidelines, and whether there has been any deviation from the principles and the reasons for such deviation.
