¹⁾ Net sales decreased 2% during the periods Jan-Dec and Oct-Dec, excluding structural and currency changes

Message from the CEO

2010 was a year of increased profit for Posten Norden, and operating profit was up by 28 percent excluding structural and currency changes. Our efforts to adjust costs have been successful and have served to streamline production and administration as well as capture synergy effects from the merger according to plan. We can confirm that we have accomplished an essentially successful Nordic merger while warding off the recession and successfully adapting operations to changed market conditions.

We operate on a market where competition is fierce and where substitution drives down letter volumes. The communication and logistics businesses are both impacted by pressure on prices. Yet there was an economic recovery in 2010 – particularly in Sweden and Norway – and demand

for our services strengthened in these countries. Meanwhile, the economy in Denmark remains weak.

Low economic activity and widespread substitution in Denmark resulted in reduced sales for Breve Danmark, while operating profit was appreciably strengthened by significant cost adjustments. The economic upswing had a clear impact on Meddelande Sverige, and volumes were up for non-priority letters and direct mail. Sales fell somewhat, but the business area's results improved.

Earnings remained negative within business area Information Logistics despite comprehensive cost reductions, but were an improvement over last year. Thanks to the economic upswing and a rise in e-commerce, business area Logistics was able to report revenue growth for the

²⁾ Includes capital gain of SEK 2,002m from the sale of Post Danmark A/S's shares in Belgian boost (formerly De Post-La Poste) in July 2009

³⁾ The group was formerly established at June 24, 2009 and first consolidated as of July 1, 2009.

full year despite price pressure and overcapacity. Successful efficiency measures contributed to Logistics's return to profitability.

The group has decided to invest in a new terminal structure in central and northern Sweden, which will make us more competitive, reduce our environmental impact and improve our ability to meet the universal service obligation in Sweden. During 2010 and early 2011, new postal legislation came into effect in both Denmark and Sweden. The new Danish law is an important milestone and entails deregulation of the Danish postal market and securing

universal service obligations. The new Swedish Postal Services Act does not provide the group with the same opportunities as the Danish law does in terms of meeting service needs and countering price changes in the market.

Posten Norden shall be the first choice among customers for sending and shipping items to, from or within the Nordic region. The prerequisites for achieving this were further bolstered in 2010 through increased customer satisfaction and profitability.

Lars G Nordström

>>> Highlights

- On January 14, 2010 the group announced its intention to change customer channels in Sweden over the coming three years in order to improve service accessibility for corporate customers. Corporate services at 337 Business Centers will be moved to partner outlets, the Internet and to service points set up by Posten.
- On February 11, 2010 the group announced its agreement with Coop Norge for in-store parcel distribution. The ambition is to increase the number of parcel distribution centers in Norway by 200 stores, further improving opportunities for businesses to reach their Norwegian customers.
- A new Postal Act came into effect in Sweden on September 1, 2010. The new law includes regulations that exceed those in the EU's Postal Directive. The requirements for pricing transparency for the national operator have been increased and the price cap has been retained. At the same time, Posten Norden's main competitor - owned by the state-owned Norwegian Post - is not subject to these EU-specific regulations.
- On September 29, 2010 Posten Norden announced the Board of Directors' appointment of Lars Idermark as new President and Group CEO. Mr Idermark is currently President and Group CEO of the Swedish Cooperative Union, KF. He will succeed Lars G Nordström on March 1, 2011.

- On September 29, 2010 Posten Norden announced the Board of Directors' decision to invest in a new terminal structure in Sweden, which will increase production flexibility and counter the major changes that are expected in letter and parcel volumes. The investment totals approximately SEK 2.5 billion and enhances competitiveness and service. More mail will be transported by rail as opposed to by air and road, which benefits the environment.
- On December 16, 2010 the Danish Parliament passed a new Danish Postal Act. The new law came into effect on January 1, 2011 and contains provisions for free competition and the securing of universal postal service obligations by Post Danmark A/S. The law also established conditions that allow Post Danmark to continue its commercial operations as supplier of the universal mail service by means of reductions within selected high-cost areas. As a result of the new law, Post Danmark is introducing a more market-oriented and differentiated pricing system for various types of stamped letters as of April 1,

Post Danmark has been granted a temporary license which is valid through April 1, 2011. The final license is being prepared

>>> Highlights after the end of the period

On January 19, 2011 the group announced the signing of its agreement with ICA, Coop and Axfood to expand its partner outlet collaboration in Sweden. Through the agreement, Posten Norden will strengthen its partner outlet network in grocery stores. The agreement covers a five-year period and aims to further improve access to postal services and the quality of customer service.

Net sales and income

The group was formally established on June 24, 2009 and first consolidated as of July 1, 2009. Information for calendar year 2009 and quarterly data prior to July 2009 are pro forma.

January-December

Net sales totaled SEK 41,669 (44,633), down 2% excluding structural and currency changes. Breve Danmark was adversely affected by a sharp drop in letter volumes as a result of competition from digital alternatives and continued economic uncertainty in the Danish market. Meddelande Sverige's volumes for non-priority mail and direct mail were positively impacted by the economic recovery in Sweden, while priority mail volumes continued to decline. Information Logistics's market was characterized by the economic uncertainty in Denmark, France and Great Britain in particular, and by price pressure and competition from digital alternatives. Despite overcapacity and price pressure in the logistics market, the business area's net sales rose excluding currency changes, which reflected

the economic recovery in Sweden and Norway. Structural measures within Information Logistics were attributable to the sale of the Supplies division in July 2009.

Group operating expenses excluding structural and currency changes fell 3%. The lower expenses are attributable to the adjustment of cost to lower volumes and to the effects of the ongoing action program. The previously identified synergy effects of approximately SEK 1 billion are being realized according to plan, and are chiefly attributable to IT in connection with the implementation of joint solutions. Structural measures were attributable to restructuring costs of SEK 407m (1,154) and Information Logistics's sale of the Supplies division in July 2009. Restructuring costs were attributable primarily to adjustments to and efficiency measures in production capacity,

administrative rationalizations and costs related to the introduction of the new terminal structure in central and northern Sweden.

Operating profit totaled SEK 1,375m (284), an increase of 28% excluding structural and currency changes.

Net financial items totaled SEK -27m (2,155). Excluding a capital gain of SEK 2,002m attributable to the sale of Post Danmark A/S's shareholdings in the Belgian Post (formerly De Post-La Poste) in July 2009, net financial items totaled SEK -27m (-63), of which costs for finance leasing totaled SEK -48m (-48). The change in net financial items is due mainly to lower debt and reduced liquidity, which produced a positive interest rate effect of SEK 18m.

Net profit totaled SEK 1,031m (2,414). Tax totaled SEK -317m (-25).

Return over equity (rolling 12-month) totaled 8 (20) %. The year-over-year reduction in return is primarily attributable to the capital gain from the sale of boost in 2009.

October-December

Net sales totaled SEK 10,871m (11,636), down 2% excluding structural and currency changes. Fourth quarter performance was in line with performance during the year-on-date period. Revenue growth for Logistics strengthened during the quarter, chiefly as a result of increased volumes in Sweden and Norway.

Group operating expenses were reduced by 3%, excluding structural and currency changes. The improvement is primarily attributable to measures taken according to plan. The quarter was charged with costs related to excessive amounts of snow. Restructuring costs totaled SEK 385m (1,050), attributable primarily to adjustments to and efficiency measures in production capacity, administrative rationalizations and costs related to the introduction of the new terminal structure in central and northern Sweden.

Operating profit totaled SEK 132m (-685), an increase of 44% excluding structural and currency changes. The negative earnings trend for Information Logistics is chiefly attributable to last year's result including a positive adjustment of the share of equity in associated companies. Excluding non-recurring items, the underlying change in income is on par with the accumulated change for the full

Net financial items totaled SEK -16m (-11). Net profit totaled SEK 61m (-492). Tax totaled SEK -55m (204).

Financial position

Group equity totaled SEK 11,753m, down SEK 1,605m from December 31, 2009. The result was impacted by the dividend of SEK 1,440m distributed in April 2010. Currency changes, primarily in SEK versus DKK, EUR and NOK, produced a translation effect of SEK -1,174m. The Equity-Assets ratio as of December 31, 2010 totaled 46%, an increase of 1% compared to December 31, 2009.

Net financial position totaled SEK 3,879m, down SEK

663m from December 31, 2009. Excluding pensions, net financial position totaled SEK 2,354m, a decrease of SEK 859m from December 31, 2009. The change is attributable primarily to a reduction in cash and cash equivalents due to the dividend of SEK 1,440m distributed in April 2010. Compensation for pension payments totaling SEK 871m (0) was received from Posten's Pension Fund.

Consolidated statement of net financial position

| SEKm | Dec 31, 2010 | Dec 31, 2009 |
|---|-----------------|-----------------|
| Financial investments | 155 | 149 |
| Long-term receivables | 13 | 14 |
| Short-term investments | | 1 |

| Net financial position incl. pensions | 3,879 | 4,542 |

Cash flows

January-December

Cash flows from operating activities before changes in working capital totaled SEK 2,301m. The liquidity effect as regards pensions totaled SEK -1,036m. Pension payments totaled SEK -1,907m and contributions from Posten's Pension Fund totaled SEK 871m. Change in working capital totaled SEK -477m.

Cash flows from investing activities totaled SEK -1,199. Investments in tangible fixed assets totaled SEK -1,050m and were primarily attributable to vehicles. Investments in intangible assets totaled SEK -222m. The intangible investments were made primarily in the capitalization related to the integration of joint IT solutions.

Cash flows from financing activities totaled SEK -1,782m. Cash flows were impacted by the amortization of loans and the redemption of management and employee shares in Post Danmark A/S. Dividends of SEK 1,440m and SEK 3m were distributed to parent company shareholders and to minority shareholders, respectively, in 2010.

Cash and cash equivalents totaled SEK 3,640m at the end of the period, down SEK 1,212m from December 31, 2009, SEK -55m of which is attributable to translation differences.

October-December

Cash flows from operating activities totaled SEK 959m (1,056), of which changes in working capital totaled SEK 127m (232). The liquidity effect as regards pensions totaled SEK -247m (-273), SEK -819m (-273) of which is attributable to pension payments and SEK 572m (0) to contributions from Posten's Pension Fund.

Cash flows from investing activities totaled SEK -497m (-514), SEK -413m (-477) of which is attributable to investments in tangible fixed assets and SEK -88m (-13) to investments in intangible assets.

Cash flows from financing activities totaled SEK -241m (-774). Cash and cash equivalents totaled SEK 3,640m at the end of the period, up SEK 215m from September 30, 2010, SEK -6m of which is attributable to translation differences.

Market prospects

2010 saw an economic recovery in the Nordic region, though the degree of recovery varied between countries. Recovery was strong in Sweden and Norway, but less so in Denmark and a number of other countries that are important to the group. There was also a recovery in the demand for Posten Norden's services. However, the communciation industry is characterized by structural changes in which the substitution of physical mail by digital alternatives drives down letter volumes. This transformation has dramatically altered the long-range conditions for running postal operations. The logistics industry has been characterized for several years by overcapacity and increasing competition from global operators. Meanwhile, demand for services is growing in markets such as e-commerce. For Posten Norden, these changes present challenges and also opportunities for growth within the communication and logistics operations.

In February 2008 the EU issued its Third Postal Directive, concerning the full realization of the EC Inner Market for postal services. The new directive entailed the deregulation of EU postal markets by December 31, 2010, with the exception of 11 countries which are exempt through December 31, 2012. During 2010 and early 2011, Sweden and Denmark enacted new postal legislation reflecting their respective ambitions to harmonize their legislation with the Third Postal Directive. In theory, a full-scale liberalization within the EU could open markets to competition with a level playing field for all operators. Where deregulation has occurred, however, markets have been re-regulated with wide variations between countries. Large and, in many cases, state-owned postal operators are or will be subject to new restrictions which complicate and limit their ability to be competitive and profitable.

2011 is expected to be characterized by continued uncertainty about eurozone stability but also by growth in Nordic countries. Posten Norden's markets will continue to be characterized by fierce competition, overca-

pacity, substitution and price pressure. Continued growth is expected on the e-commerce market. Posten Norden intends to meet this development with new business initiatives and continued cost adjustments. Operations will be further streamlined. Production capacity will be adapted to greater volume variations and the cost base will be made more flexible. Efforts to secure previously identified and new synergies will continue.

Parent company

The company was formed in December 2008 and became parent company of the Posten Norden Group on June 24, 2009. The comparative year covers the period December 1,2008-December 31,2009.

The parent company has run a limited operation and has only one employee, the President/CEO. No net sales were reported for the period. Of operating expenses, which totaled SEK 18m (10), SEK 13m (7) were attributable to personnel expenses for the CEO. Financial items totaled SEK 958m (2,039), of which SEK 1,000m (2,044) was attributable to anticipated dividends from subsidiaries and SEK -45m (-1) to currency effects. Profit before tax totaled SEK 940m (2,029), and profit after tax totaled SEK 956m (2,033). No cash and cash equivalents were reported and no investments were made in tangible fixed assets.

Proposed dividend

The Board proposes an ordinary dividend, in accordance with the company's dividend policy, of SEK 600m (1,440) as well as an extraordinary dividend of SEK 400m (0).

Risks and uncertainties for the group and the parent company

Swedish and Danish postal legislation is being amended in light of the new EU regulations (the Third Postal Directive) which are aimed at breaking up remaining postal monopolies.

In Sweden, the parliament adopted a resolution that came into effect on September 1, 2010. The new Swedish law also includes regulations that exceed those in the EU's Postal Directive. The requirements for pricing transparency for the national operator have been increased and the maximum price level has been retained. At the same time, Posten Norden's main competitor - owned by the state-owned Norwegian Post - is not subject to these EUspecific regulations. Accordingly, Posten Norden deems that there is a risk of distorted competition, a risk that the owner's return requirements may not be attainable and a risk that it may be unable to fulfill its universal service obligation. The group company, Posten AB, has appealed an order issued by the Post and Telecom Agency based on licensing terms relative to the new law.

On December 16, 2010 the Danish parliament passed a new Danish Postal Act. The new law came into effect on January 1, 2011 and includes provisions for free competition and the securing of universal service obligations by the group company, Post Danmark A/S. Post Danmark is commissioned to maintain its distribution obligation during the period 2011-13. This means that six-day-perweek postal distribution will continue and that Post Danmark is obliged to transport letters weighing up to 2 kilos and parcels weighing up to 20 kilos. Postal operators will be licensed and the Ministry of Transport has been commissioned to establish a fund to finance the net costs of the universal postal service obligation to which all postal operators shall contribute. There is also political consensus to enable Post Danmark to continue its commercial operations by means of reductions within selected highcost areas and by adjusting the letter pricing framework. Format-based taxation of stamped letters will be abolished. Post Danmark has also announced its intention to introduce differential price rates for various types of stamped letters and to raise the rate for priority mail vis-àvis non-priority and business mail as of April 1, 2011.

The Danish mail market experienced a 10% drop in volume during 2010, intensifying the need for continued significant cost savings. The new Postal Act creates more favorable conditions for efficient production; price differentiation produces a better correlation between price and cost for various types of stamped letters. The law also specifies that all mailboxes for all Danish households, with possible exemptions for disabled households, must be located on the property line. In line with enactment of the new law, Posten Norden has decided to introduce two new types of parcels.

In September the Swedish Post and Telecom Agency (PTA) announced its decision requiring Posten AB to establish a threshold value that must be applied, without exception, when categorizing normal and low-price pricing zones when sorting letters. According to the PTA's opinion, Posten's applied pricing model and current zoning fail to comply with the Postal Services Act's requirement that pricing must be cost-oriented. Under the PTA's decision, Posten was required to change its zoning no later than January 1, 2011.

Posten's position is that the PTA's decision is based on an erroneous interpretation of the Postal Services Act and the requirements thereunder for cost-oriented pricing. Posten appealed the PTA's decision and requested that the order be set aside. On November 3, 2010 the Administrative Court in Stockholm ruled in favor of a stay of enforcement, thereby rendering the PTA's order unenforceable pending further adjudication. The Court's ruling regarding a stay remains in force until the Court decrees otherwise or renders its final judgement.

Last February, Bring Citymail sued Posten in the Swedish Market Court. Bring Citymail claims that Posten should terminate the discount it offers to customers with large pre-sorted mailings. The Competition Authority has previously considered the issue, and dismissed the case in December 2009 based on lack of any grounds for further investigation.

Risks, risk management and factors that may affect the business are described in Posten Norden's 2009 Annual Report.

This report has not been audited.

Notes

Pro forma information for 2009 has not been prepared for the Notes with the exception of note Segment Reporting.

NOTE 1 Accounting principles

Compliance with legislation and regulations

The consolidated financial statements were prepared in accordance with International Financial Reporting Standards (IFRS), issued by the International Accounting Standards Board (IASB), together with interpretation statements from the International Financial Reporting Interpretations Committee (IFRIC), to the extent that they have been approved by the European Commission for application within the European Union. The Swedish Annual Accounts Act and the Swedish Financial Reporting Board's rule RFR 1, Supplemental Financial Statements for Groups, were also applied.

Consolidated financial statements

The group's year-end report is prepared in accordance with IAS 34, Interim Financial Reporting, and with the Annual Accounts Act. The same accounting principles and methods of calculation were used in this year-end report as in the 2009 Annual Report, taking into account changes described below.

Pro forma statements have been prepared in order to enable yearover-year comparison. Pro forma information was prepared for the Income Statement and the Statement of financial position.

Changes in accounting principles

Accounting principles that came into effect in 2010

- IFRS 3, Business Combinations. Stipulates revised rules for determination of reported goodwill and that acquisition costs may not be capitalized; expands definition of 'business combination'; specifies that fair value of consideration shall be determined at acquisition date and that changes in liability related to contingent consideration occurring up to settlement shall be adjusted in total results. The new rules also allow the choice between two methods of calculating the minority and specify that additional acquisitions shall be reported as equity transactions after a stipulated level of influence is achieved. The standard will be applied from January 1, 2010. Application of the new IFRS 3 will have some effect on the consolidated position and results in connection with future acquisition activities, primarily in terms of acquisition costs for advisory services and consultations in connection with acquisitions that can no longer be capitalized in the consolidated financial statements and which will differ from the reporting of legal entities and the application of conditional purchase consideration.
- IAS 27, Consolidated and Separate Financial Statements, has been changed with respect to the way in which changes of ownership interest in subsidiaries, effects of goodwill, and profit and loss resulting from changes in ownership shall be reported. Changes of ownership in entities in which controlling influence is retained shall be reported as equity transactions. Profits and losses resulting from the cessation of controlling influence of an entity shall be reported in net profit; the remainder shall be re-valued. In addition, losses shall be allocated to non-controlling interest holdings even where this results in a negative share of equity. The changed standard has not to date affected reported acquisitions.
- Improvements to Standards: (Change of IFRS 8, Operating Segments. Total assets and liabilities shall be reported in the financial statements in the manner in which they are reported to company management for the management of operations. The improvement to the standard has not caused any change in the company's segment reporting.

Future changes in accounting principles that take effect in 2011 or later

- IAS 24, Related Party Disclosures. Amendment stipulates that transactions between state-owned companies are not automatically considered to be related party transactions. To be applied from January 1, 2010. The company's disclosures to date concerning transactions with the government are limited to reports of a non-commercial nature, meaning that related party transactions have applied to specific mandates from the state and licenses from authorities. The amendments to the standard have not had any bearing on the company's related party disclosure.
- IFRS 9, Financial Instruments, replaces the current IAS 39. To be applied from January 1, 2013. The main known changes are that classification and valuation will be reduced to two categories and will be assessed either at fair value or at amortized cost, and that estimation and valuation of credit losses in connection with loan valuations will be based on a model of anticipated losses rather than "realized" losses. Changes with regard to hedge accounting are also anticipated but are as yet unknown. The changes to classification and valuation are not expected to affect the company's reporting of financial instruments, since the company does not have assets in other categories. The standard regarding credit losses is not expected to have any effect on the company, since the company's credit losses apply only to accounts receivable.
- IFRIC 14 IAS 19, Limits on a Defined Benefit Asset, Minimum Funding Requirements and their Interaction. Under the change, surplus for covering minimum pension funding requirements may be recognized as assets. The change will be applied as of January 1, 2011. The majority of defined benefit pension plans in Sweden are safeguarded by a pension fund. Payments are not normally made to the pension fund to cover minimum funding requirements. Rather, other methods such as pension liability insurance are used to safeguard benefits. The change therefore has no effect on the company's reporting.

The company has elected not to apply new and future changes to accounting principles, interpretations or improvements ("Improvments to IFRSs") in advance.

NOTE 2 Estimates and assessments

In preparing these financial reports, the group management has made assessments, estimates and assumptions that affect the group's reported accounts. These estimates and assumptions are based on what is known at the time the financial reports are presented, as well as historical experience and assumptions that the group management considers reasonable under the current circumstances. The conclusions drawn by group management form the basis for the reported values in the accounts. Actual future values, estimates and assessments in future financial reports may differ from those in this report, due to changing environmental factors and new knowledge and experience.

The most significant estimates and assessments for Posten Norden have been made in the areas described below.

Postal obligation

Posten Norden's postal obligation is calculated for stamps which have been sold but not used. Assumptions used in calculating the postal obligation affect the size of the obligation. Assumptions are based on the number of stamps sold but not used in Sweden and Denmark. Investigations are conducted in Sweden and Denmark to ensure that the assumptions are reasonable. The size of the obligation may be affected in cases where investigations show changes in the behavior of the population or where a sample group is not representative of the population.

Intangible assets

Assumptions are made about future conditions in order to calculate future cash flows that determine the recoverable value of goodwill, brand and customer relations. The recoverable value is compared with the reported value for these assets and forms the basis for possible impairment or reversals. The assumptions that affect the recoverable value most are future volume development, profit margin development, the discount rate and estimated useful life of the asset. If future environmental factors and circumstances change, these assumptions may be affected so that the reported values of intangible assets are changed.

Pension commitments

In the actuarial calculations of Posten Norden's pension commitments, a number of estimates are made in order to set reasonable assumptions. The most significant are the assumption of the discount rate, future expected return on assets under management, wage trends and inflation. Modifications of the assumptions due to changing environmental factors may influence Posten Norden's financial statements if the effects of the revised assumptions should fall outside the "corridor". Modified assumptions also affect the cost forecasts for the upcoming year. A change in the balance between the rate of return and the interest on debt of +/- 0.1 percentage point, other things being equal, impacts profit before tax by SEK +/-16m increase or decrease in net financial items. A change in the discount rate of +/- 0.5 percentage point, other things being equal, leads to an impact on operating profit of SEK -124/+115m. Changes in inflation or wage trends, individually and all other things being equal, of +/- 0.5 percentage point leads to an impact on operating profit of SEK +/- 100m for inflation and SEK +/- 40m for wage increases.

Provisions

In its conversion into a corporation in Sweden in 1994, Posten Norden assumed a contingent liability (special temporary provisions) such that certain categories of the workforce may choose to retire early, at the age of $60\,\mathrm{or}\,63$. The contingent liability is reported as a provision in the statement of financial position and is calculated based on previous experience of the proportion of persons who have chosen to exercise their right to early retirement in accordance with these provisions. If the number of those who choose this option should change, the liability will change accordingly. A change of 5 percentage points to the rate of utilization of this option leads to an impact on operating profit of SEK 10-20m.

Taxes

The capitalization of tax loss carry-forwards has been assessed based on business plans and estimates of future taxable profits that can utilize tax loss carry-forwards. Estimates have been made of non-deductible costs and non-taxable income in accordance with current tax regulations. Furthermore, consideration has been taken of the next six years' financial results in order to evaluate the reported tax claim at the currently applicable tax rate. Changes to tax legislation in Sweden and other countries where Posten Norden operates and changes in interpretation and application of applicable legislation may influence the size of the reported tax assets and liabilities. Changed circumstances that impact the assumptions will also influence net profit for the year.

NOTE 3 Segment reporting

Posten Norden's organization into business units is based on the manner in which Posten Norden is governed and activities are reported to management. Market pricing applies to internal dealings between Posten Norden business units. There is no latitude for making external purchases where the service in question is available internally. In Posten Norden's operational structure, though not in its legal structure, cost distribution of corporate shared service functions is at cost price with full allocation of costs.

Breve Danmark (Mail) is the leading supplier of distribution solutions on the Danish communication market, with a nationwide distribution network. The business area offers physical and digital letter, direct mail and newspaper services, facility management services as well as drop-off and collection of private parcels.

Meddelande Sverige (Mail) is the leading supplier of distribution solutions on the Swedish communication market, with a nationwide distribution network. The business area offers physical and digital letter, direct mail and newspaper services as well as drop-off and collection of private parcels.

Information Logistics, with Strålfors, develops, produces and delivers systems, services and products for efficient business communication. The business area is a Nordic leader in its field and has operations in the Nordic region and several other European countries.

Logistics is a leader on the Nordic logistics market and offers a unique scope of coverage within its distribution network throughout the entire region. The business area runs operations in parcel, pallet and general cargo as well as messaging, express, third-party logistics, in-night freight forwarding and consignment freight.

Other and eliminations comprises shared services and corporate functions including the parent company, the Swedish Cashier Service and intra-group adjustments. The adjustments are primarily internal eliminations; IFRS adjustments regarding pensions in accordance with IAS 19, Employee Benefits; and finance leasing in accordance with IAS 17, Leases. From Other and Eliminations, service costs for shared services and corporate functions are allocated to the business areas. Cost allocations are taken up as income in Other and Eliminations under Other Operating Income, Internal. Within the business areas, cost allocations are taken up as income under Other expenses.

Shared services and corporate functions and the Swedish Cashier Service are included as of January 1, 2010, and comparative figures for previous years have been adjusted.

¹⁾ Østra Landret ruled against Post Danmark in a case concerning discriminatory pricing. Post Danmark A/S appealed the decision to Højesteret. In connection with this matter, a competitor filed a claim against Posten Danmark A/S. The claim for compensation is contested in its entirely by Post Danmark A/S

NOTE 10 Transactions with associated parties

Swedish state

Posten AB paid SEK 12m (7) to the Post and Telecom Agency (PTS) for permits to run postal operations and Posten Meddelande AB paid SEK 8m (4) for handling dead letters. Posten received disability compensation of SEK 14m (7) for Braille services and services for senior citizens living in sparsely populated areas.

Danish state

During the period, Post Danmark A/S paid premiums of SEK 241m (144) to the Danish state for the group of civil servants employed prior to the date of incorporation. A further SEK 18m (31) is reserved in the statement of financial position for any additional obligations to the same group of employees.

Other organizations

Posten's insurance association insures Posten Norden's commitments in Sweden for employee disability and family pensions based on ITP-P. During the period, Posten Norden paid premiums of SEK 172m (96) to the association and received compensation totalling SEK 10m (5). Other compensation from the association was paid directly to the beneficiaries.

Posten's Pension Fund manages pension commitments for Posten AB, Posten Meddelande AB and Posten Logistik AB. The companies capitalize new pension commitments in the fund and receive compensation for pensions paid. Capitalization of SEK 854m (20) occurred during the period. Compensation totaling SEK 871m (0) was received for pension payments made in 2009.

NOTE 11 Investment commitments

As of December 31, 2010, the Posten Norden group entered into agreements for the acquisition of fixed assets totaling SEK 356m (102), mainly for sorting equipment and vehicles.

Notes

NOTE 1 Accounting principles

The parent company essentially applies the same accounting principles as the group does, and thus applies RFR 2, Reporting of Legal Entities. The differences between the parent company's and the group's accounting principles result from the parent company's limitations in applying International Financial Reporting Standards (IFRS) as a consequence of the Swedish Annual Accounts Act and the Law on Safeguarding of Pension Commitments, and are to some extent also based on tax considerations. Posten Norden AB was initially registered with the Swedish Companies Registration Office on December 1, 2008. The comparative reporting period is December 1 2008-December 31, 2009.

Participations in subsidiaries, associated companies and joint ventures

Participations in subsidiaries, associated companies and joint ventures are reported in the parent company using the acquisition cost method. Received dividends are reported as income provided that they arise from post-acquisition earnings. Dividends that exceed post-acquisition earnings are viewed as a repayment of the investment and may reduce the reported value of the participation.

Dividends

Dividends from subsidiaries, associated companies and joint ventures are reported as revenue when right to the dividend is established.

Anticipated dividends from subsidiaries are reported in cases where the parent company has the exclusive right to determine the size of the dividend and has made a decision on the size of the dividend prior to publication of the parent company's financial statements.

If the carrying value of the parent company's holdings in the subsidiary, associated company or joint venture company exceeds the carrying amount in the financial statements, it is considered an indication of a write-down requirement and an impairment test shall be conducted.

Employee benefits

Pension commitments for civil servants covered by pension insurance plans are reported in the parent company as defined contribution plans. Other pension expenses are included under operating profit.

Financial guarantees

The parent company's financial guarantees consist mainly of guarantees for the benefit of subsidiaries and joint ventures. Financial guarantees entail the company pledging to compensate the owner of a debt instrument for losses incurred in the event a debtor does not complete payment on the due date specified in the contract. To report financial guarantee agreements, the parent company applies RFR 2, which is somewhat more lenient than the rules in IAS 39 regarding financial guarantee contracts for the benefit of subsidiaries, associated companies and joint ventures. The parent company reports financial guarantee agreements as provisions on the balance sheet when Posten Norden has a commitment for which payment is likely to be required to settle the commitment.

Taxes

The parent company reports untaxed reserves, including its deferred

Segment reporting

The parent company's business activities consist of a sole operation, group functions.
