We deliver! PostNord is the leading supplier of communication and logistics solutions to, from and within the Nordic region. We ensure the provision of postal service to households and businesses in Sweden and Denmark. With our expertise and strong distribution network, we develop the conditions for tomorrow's communication, e-commerce, distribution and logistics in the Nordic region. In 2017, the Group had around 31,000 employees and sales of just over SEK 37 billion. The Parent Company is a Swedish public limited company with Group headquarters in Solna, Sweden. Visit us at www.postnord.com

New business agreements, continued transformation and focus on quality

The year's second quarter was dominated by a high level of activity in every area. In addition to approval from the EU for the first stage of our owners' financing for the transformation in Denmark, most of the new commercial agreements were signed.

On May 28, the EU Commission notified its approval of the SEK 1,533m government subsidy to finance compensation from the Danish State to Post Danmark A/S for the extra costs of the universal postal service. On June 11, PostNord's Board of Directors agreed to carry through immediately the transformation of PostNord Denmark announced earlier and awaiting EU approval of the financing arrangement. Income for the second quarter was impacted by SEK -1.1bn net, as a result of the above-mentioned government subsidy and provision for the transformation.

Parcel volumes continued to grow rapidly, by 17%, during the quarter, while and mail volumes again decreased, by -7%. To be able to handle the higher parcel volumes, we placed several new terminals in service. Our challenge in Sweden is that we are witnessing major losses in mail revenue while the number of households for mail deliveries is increasing. A trend that is, of course, bringing pressure on the profitability of our mail business. The Group reports a more or less breakeven result, excluding items affecting comparability, for the first half-year. The Group's results are to a major extent affected by the losses in Denmark during the transformation and by higher costs incurred by the Swedish company to ensure high delivery quality. Compared to the second quarter 2017, the result is better partly due to the relative dates for Easter between the years.

The service partner agreement with the ICA chain in Sweden have been extended via a multi-year agreement. We have also signed a new service partner agreement with Reitan Convenience Sweden AB, owner of the Pressbyrån and 7-Eleven retail outlets. The new and extended agreements are evidence of the commercial attractiveness of

being a service partner, and ensure a leading service partner network in Sweden for the future. PostNord Strålfors, too, signed several new agreements combining physical with digital communication during the quarter, including ones with Aller Media, Telia Danmark, Intrum and Kraftringen.

We are continuing to develop our digital services. For example, we have incorporated use of Swedish bank IDs into our PostNord app. For customers using the system, recipients can choose to redirect parcels or change recipients via the app, which currently has more than 1.5 millions users across the Nordic region. We have also announced our intention to launch our own digital mailbox in Sweden and have applied to the Swedish Tax Agency for approval as a digital mailbox operator for "Mina meddelanden" (My Messages). During the guarter, we launched a digital system for direct VAT payment at purchase for those buying from the USA's online e-commerce company Wish. The system simplifies the process for both customer and PostNord. We expect more e-commerce actors to sign up to the system.

During the quarter, PostNord conducted a nationwide tour of Sweden to listen to recipients' views on our business. We performed a similar process in Denmark, where we invited citizens to meet us at one of our post offices In just over two months, we visited 23 locations in Sweden, from Luleå in the north to Malmö in the south, and talked to more than 20,000 people to hear their opinions on PostNord. While we did receive quite a number of comments on our service, the most common remark was "I don't have any problem with your business, but I've read in the newspaper about all the problems you're having." This reinforces our conviction that we are on the right road. Our services are appreciated by many, but we must continue to focus on meeting the expectations of recipients regarding delivery quality. Only when do so will we regain the trust that we urgently need to put into place the huge changes that are continuingly required to deal with lower mail volumes and the rapidly expanding e-commerce.

Håkan Ericsson President and CEO

MAJOR EVENTS IN JANUARY-JUNE

On June 26, our owners announced at an extraordinary general meeting held on August 14, 2018 that they will propose Christian W. Jansson as Chair of the Board and Christian Frigast as Deputy Chair. At the AGM, present Chair Jens Moberg and Board member Anitra Steen will leave the Board of Directors. For further information, see the press release dated June 26.

In June, Post Danmark A/S received SEK 1,533m from the Danish government following approval from the EU Commission for the government subsidy. On June 11, the Board resolved to carry out the transformation of PostNord Denmark and provision was made regarding costs associated with termination of employment for employees in Denmark with special employment conditions.

1

Net sales and income

Unless otherwise stated, the report comments on developments in April-June compared to the same period in 2017.

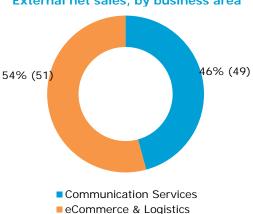

FINANCIAL OVERVIEW

Net income	-901	-336	-1.068	-320	

^{*} Change excludes acquisitions, disposals and impact of currency

Net sales for the Group totaled SEK 9,503m (9,067). As a result of continued digitization, mail volumes declined by 7% overall in the quarter, 7% in Sweden and 5% in Denmark. Sales of digital services at PostNord Strålfors increased by 11%. Parcel volumes rose by 17% as a result of further buoyant growth in e-commerce, where B2C parcel volumes increased by 30%. Income for third-party logistics increased overall by 11%. The increase in income is partly explained by the relative dates for Easter between the years.

External net sales, by business area

OPERATING INCOME

	Apr.	-June	JanJune		
SEKm	2018	2017*	2018	2017*	
PostNord Sweden	222	258	360	532

property Exchange rate difference, items affecting comparability	-73 12	-	-73 12	-	
Adjusted operating income (EBIT)	68	-4	-6	188	

^{* 2017} figures restated to reflect new segment reporting, see Note 3.

Operating income for the second quarter was SEK -901m (-291). Items affecting comparability totaling SEK -969m (-287), net, charged to operating income consisted for the most part of a government subsidy received in Denmark and provision for termination of employment for employees in Denmark with special employment conditions. Adjusted operating income totaled SEK 68m (-4). The improvement is attributable to growth in e-commerce and mixed-cargo groupage, GDPR-related mailings and cost savings.

The relative dates for Easter between the years also had a certain positive impact on the quarter.

Net financial items for the period totaled SEK -12m (-2). The Group's tax expense totaled SEK 11 (-43) for the quarter and SEK -81m (107) for the year to date. The relatively high tax liability arises because deferred tax has not been recognized regarding Denmark's deficit, since it is estimated that the tax loss carry-forward cannot be utilized within a foreseeable period. Net income totaled SEK -901m (-336). New tax rules in Sweden for the corporate sector were enacted by Riksdagen in June, with the effect in part that the rate of corporation tax will be lowered in two stages after December 31, 2018. This reduction had no material effect on the Group's deferred taxes net, on the basis of the Group's assessment of due dates.

Cash flows and financial position

CASH FLOWS

	June 30	Mar. 31	Dec. 31	June 30
SEKm	2018	2018	2017	2017
Interest-bearing debt	4,525	3,797	3,778	4,029
Pensions and disability pension plans	-389	-1,395	-1,145	-88
Long- and short-term investments Cash and cash	-204	-334	-494	-823
equivalents	-4,157	-1,823	-1,901	-3,086
Net debt	-225	245	238	32
Net debt ratio	-4%	3%	3%	0.4%

Cash flows from operating activities before changes in working capital totaled SEK 2,117m (1,143). The increase was attributable above all to a government subsidy of SEK 1,533m received to cover provisions for costs associated with the termination of employment of employees in Denmark with special employment conditions.

Working capital showed a change of SEK -255m (-221) during the quarter.

Investments in property, plant and equipment and in non-current intangible assets during the period totaled SEK 406m (207). These consisted for the most part of investments in new terminals, vehicles, third-party logistics equipment and IT development. The increase from the preceding year related above all to investment in vehicles and terminals.

Surplus liquidity was in part invested in commercial paper with a view to lowering the costs of cash and cash equivalents. Investments in commercial paper decreased by SEK 135m over the period. In the same period last year, these investments increased by SEK 40m net.

The Group's equity decreased to SEK 6,266m from SEK 7,430m on March 31, 2018. The change arose primarily through net income for the period, revaluation of pension commitments and a positive translation difference as a result of the Norwegian krone strengthening against the Swedish krona.

The Group's net debt decreased during the quarter by SEK 470m to SEK -225m. The biggest changes during the quarter were an increase in cash and cash equivalents as a result of a government subsidy received, while a lowering of the discount rate for the Group's pension plans increased the Group's pension liability.

Interest-bearing debt consists of a long-term portion of SEK 1,594m (1,720) and a current portion of SEK 2,931m (2,309). The increase in interest-bearing liabilities in the quarter arose through net borrowing in the form of commercial paper loans.

The Group's debt ratio was -4% (0.4) at the end of the quarter, lower than the Group's target of 10–50%

Adjusted return on capital employed (ROCE) was 2.0% (-1.2).

The Group's financial preparedness totaled SEK 6,161m (7,627) on June 30, 2018,comprising cash and cash equivalents of SEK 4,157m (3,086), short-term investments of SEK 4m (541) and an unutilized credit facility of SEK 2,000 (4,000), which expires in 2021.

Sustainability

The average number of employees (FTEs) totaled 29,731 (31,085), a reduction of 1,354 since Q2 2017. The number of employees has been reduced to align the business with lower income from products adversely affected by digitization, and to boost the Group's competitiveness. Sick leave was calculated at 5.6% (6.0). The level remains too high, but on the positive side it has fallen steadily and is now 0.4% percentage points lower than in the same quarter last year. To address the problem of sick leave, initiatives are being focused on both rehabilitation and preventive measures. In the second quarter of 2018, the proportion of women in management positions overall rose from 32.4% to 33.1%. The proportion of women at management levels 1-3 fell marginally from 35.4% (Q1) to 35.3% but at management levels 4-6 rose from 31.6% to 32.5%.

During the first half-year, carbon dioxide emissions totaled 161,662 tonnes, representing a fall of 8%. Since the base year 2009, the reduction has totaled 37% and the aim is to achieve a reduction of 40% by the end of 2020. All units have reduced their emissions, primarily through the use of biofuels, with a notably major impact in Sweden, but transport optimization actions and the new production model in Denmark also contributed. In the second quarter, PostNord entered a Swedish and a Danish driver in the IPC Drivers' Challenge, taking home the Efficiency Award for the team driving electric vehicles most efficiently. A process to phase out air routes for mail has been initiated in Sweden and is expected to deliver further impact over the year.

Delivery quality for stamped letters in Sweden has remained steady since January, at around 99%. This exceeds the new legal requirement that 95% of stamped letters must be delivered to the right recipient within two weekdays.

A completely new production model was introduced in Denmark in January, resulting in a major transformation of production in Denmark. In June, delivery quality of 96.6% was recorded for Denmark's Brevet, the best outcome since August last year. Delivery quality over a rolling 12-month period was 94.4%, exceeding the legal requirement of 93%.

Volumes for parcels are continuing to increase, in pace with the growth in e-commerce. Weighted delivery quality in parcels was measured at 94.4% (rolling 12-months).

The long-term goal, which is to be attained by no later than 2020, is for 80% of the Group's total purchasing to come from suppliers who comply with the Code of Conduct. At the end of Q2, the proportion of total Group purchases from suppliers signed up to the Code of Conduct for Suppliers was around 71% (including procurement of services from service partners). During the first half-year, work on checking supplier compliance with the Code of Conduct continued. During the quarter, approximately 220 suppliers were requested to perform a self-assessment and 15 underwent a local audit. At the end of the quarter, approximately 45% of purchasing volumes were sourced from suppliers who had successfully completed PostNord's process to check compliance with the Code of Conduct. The sub-suppliers to undergo an audit are selected on the basis of the perceived risk in their business.

Parent Company

The Parent Company conducted very limited operations, in the form of intra-Group services. No net sales were recognized during the quarter or in the comparable quarter last year. Net income totaled SEK -17m (-43) for the period and SEK -28m (-59) for the year to date.

Net sales in Sweden increased by in all 4%. At Communication Services, sales decreased via continued digitization, resulting in a 7% decline in mail volumes including addressed direct mail.

Sales for eCommerce & Logistics increased mainly through further growth in e-commerce, leading to a 31% increase in B2C volumes, but there was also growth in third-party logistics and pallet goods & mixed cargo groupage.

The decline in income for the quarter and the first half-year resulted from increased digitization, quality assurance costs and price pressure in the logistics business.

^{*} Change excludes acquisitions, disposals and impact of currency

In Communication Services, sales fell as a result of a 5% decrease in Denmark's mail volumes and because, as part of its restructuring, PostNord Denmark decided that from the start of 2018 it would no longer offer distribution of unaddressed direct mail and weekly newspapers. The increase at eCommerce & Logistics arose above all through strong growth in B2C parcels and increased income in goods.

Items affecting comparability totaling SEK -969m (-287), net, charged to operating income consisted primarily of a government subsidy received, provision for termination of employment for employees with special employment conditions and capital gains on sales of properties.

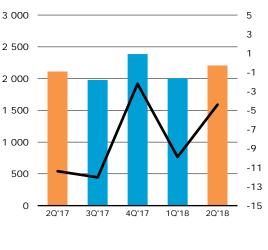

Adjusted operating income for the quarter showed a slight improvement, from growth in logistics and cost savings through the transformation program.

^{*}Change excludes acquisitions, disposals and impact of currency

The increased income resulted mainly from higher sales in printing and enveloping as a result of the dates for Easter this year, GDPR-related non-recurring orders and higher digital volumes.

The higher operating income in the quarter was mainly attributable to increased revenue. Net income for the half-year was on a par with the preceding year, despite a decline in print volumes as a result of income from higher digital volumes.

Notes to financial statements

Note 1 – Accounting principles

The consolidated accounts have been prepared in accordance with the International Financial Reporting Standards (IFRS) approved by the EU. The interim report has been prepared in accordance with IAS 34 Interim Financial Reporting, supplemented by rules in the Swedish Annual Accounts Act. The provisions of Chapter 9 of the Swedish Annual Accounts are applied in the Parent Company. Other disclosures in accordance with IAS 34.16A are presented both in the financial statements and other parts of the interim report.

The Group and the Parent Company apply IFRS 9 Financial Instruments and IFRS 15 Revenue from Contracts with Customers with effect from January 1, 2018. The adoption of IFRS 9 and IFRS 15 has not required any adjustment to the Group's opening equity either in 2017 or 2018. In the case of IFRS 15, PostNord has opted for full retrospective application, meaning that revenue for the year shown for comparison is recognized in accordance with IFRS 15. For further information, see Note 3.

In the case of IFRS 9, information provided for comparison has not been restated. Changes in principles for impairments of loan and trade accounts receivable affect recognized income for the Group and its financial position. The Group has taken the view that all financial assets previously measured at fair value should continue to be measured at fair value and that loan and trade receivables also continue to meet the criteria to be recognized at amortized cost. The Group applies the simplified approach to recognition of expected credit losses on trade receivables. This means that expected credit losses for the remaining time to maturity are taken into account. In the case of certain receivables and cash and cash equivalents, the general approach is taken to expected credit losses. These receivables generally have a short time to maturity. During the quarter, the Group received a government subsidy of SEK 1,533m from the Danish State. Under IAS 20, government subsidiaries are recognised in the statement of financial position and the statement of comprehensive income when there is reasonable assurance that the company will fulfill the conditions associated with the subsidies and that the subsidies will be obtained. Government subsidies are recognised as other operating income in net income over the same periods as the costs that the subsidies are intended to compensate for.

New IFRS not yet adopted

A number of new or revised IFRSs will come into effect in the next few financial years and have not been adopted early in the preparation of these financial statements. Work on IFRS 16 continues, with an in-depth analysis of the lease portfolio. The outcome of the analysis and the calculations in accordance with IFRS are expected to have a material effect on the Group's financial position. On December 31, 2017, the Group had remaining lease fees of around SEK 5.5 billion. The Group is planning to apply the modified retroactive approach, in which the accrued effect of the transition will be recognized in the opening balance on January 1, 2019. Otherwise, the same accounting policies and calculation methods have been used in the interim report as in the 2017 annual report for the Group and Parent Company.

Note 2 - Risks

The Parent Company and the Group are exposed to strategic, operational and financial risks. The Danish business is undergoing a far-reaching transition to a new production model in order to bring about long-term sustainable profitability. This will involve major restructuring costs and the anticipation of losses during the transformation. On May 28, the EU Commission notified its approval of the SEK 1,533m government subsidy to fund compensation from the Danish State to Post Danmark A/S to meet the extra costs of the universal postal service. On June 11, PostNord's Board of Directors agreed to carry through with immediate effect the previously announced transformation of PostNord Denmark that had been pending the EU's approval of the financing arrangement. See PostNord's 2017 Annual and Sustainability Report (page 26 and Note 2 on page 52), for a description of risks, uncertainties, other risk management and significant assessments and estimates.

Note 3 - Segments

The Group's organization into segments is principally based on the companies' registered geographical domicile. The PostNord Strålfors segment is organized on the basis of the nature of the business. Market pricing applies to internal dealings between the Group's segments. Effective 2018, segment reporting is amended with regard to the segments Direct Link and Other, as described in the following. Figures presented for comparison are restated.

- Formerly, the segments were reported inclusive of costs of Group-wide functions, that were not invoiced, using an operating allocation model. As of this report, the above-mentioned costs of Group-wide functions are reported via the segment Other.
- A new segment comprising Other business activities is formed of the previous segments Direct Link and other business activities formerly reported via the segment Other.
- At Group level, the cost of and allocation for non-vested pensions in Sweden are measured for the "interim provisions" in accordance with IAS 19. This IAS adjustment is transferred from the segment Other to the segment PostNord Sweden.

PostNord Sweden operates in the mail, logistics and e-commerce sectors in the Swedish market and is responsible for all PostNord's fulfillment operations.

PostNord Denmark operates in the mail, logistics and e-commerce sectors in the Danish market and is responsible for the e-commerce and logistics part of PostNord's operations in Germany.

PostNord Norway and Finland operate in the mail, logistics and e-commerce sectors in the Norwegian and Finnish markets, respectively.

PostNord Strålfors operates in the information logistics sector. The company develops and offers communications solutions in the printing, distribution and digital fields.

Other business activities comprises Direct Link, which operates in global distribution of market communications and lightweight goods, mainly on behalf of e-retailers, and other business activities on a minor scale. Direct Link's business is conducted in the USA, the United Kingdom, Germany, Singapore, Hong Kong and Australia.

Other & eliminations fall within Group-wide functions, including the Parent Company and consolidation adjustments.

Net Sales, external

Business Areas

	Communica	tion Services	eCommerce	& Logistics
	Jan-jun	Jan-jun	Jan-jun	Jan-jun
Segments	2018	2017	2018	2017
PostNord Sweden	5,566	5,697	5,395	4,988
PostNord Denmark	1,822	2,154	2,143	1,946
PostNord Norway	23	23	1,657	1,590
PostNord Finland	5	7	379	345
PostNord Strålfors	979	1,007	-	-
Other business activities	119	117	517	522
Total	8,514	9,005	10,091	9,391
Point in time for revenue recognition				
At one point in time	8,178	8,626	9,910	9,230
Over time	336	379	181	161
Total	8,514	9,005	10,091	9,391

The above table shows PostNord's external net sales per service category (business area) and point in time for revenue recognition. The Group applies IFRS 15 as of 2018. The impact is SEK -35 (-36) on net sales with a corresponding reduction in other costs. PostNord's revenue is mostly recognized at one point in time. The main items in revenue recognition over time are third-party logistics, subscription services and mail services.

Business area eCommerce & Logistics offers logistics services for deliveries to, from and within the Nordic region. The focus is on distribution of parcels, consignment goods, pallet goods and bulk logistics (mixed-cargo groupage). Communication Services consist of services in business and market communications, newspaper distribution and postal service for individual customers. For a more detailed description of PostNord's service, see the Annual Report.

Provision was made during the second quarter of 2018 regarding costs associated with termination of employment for employees in Denmark with special employment conditions. The restructuring program for the Danish business consists of a reduction of in all around 4,000 full-time employees in the Danish business.

Note 5 - Acquisitions and disposals

No acquisitions or disposals took place during the period or the preceding year.

In the second quarter of 2018, two new subsidiaries were established, (Hilleröd HUB ApS and Horsens HUB ApS), both owned 100% by PostNord Group AB. The intention is to construct and establish two new distribution hubs in Denmark. The buildings will accommodate collection and distribution facilities for letters and parcels for PostNord Denmark.

¹⁾ Terminal fees are payment for production services performed in the receiving country, for mail posted in another country, under international agreements between countries. Terminal fees are recognised under Prepaid expenses and deferred income in the Statement of financial position.

Recognition and fair value measurement of financial instruments

The fair value of loan liabilities is calculated as the discounted value of future cash flows relating to repayment of capital amounts and interest. The value is discounted to the current loan interest rate. In view of the short terms for trade receivables and trade payables, it is assumed that the carrying amount is the best approximation of the fair value

All financial assets and liabilities recognized at fair value in the balance sheet are classified at level 2; see also Note 27 Financial risk management and financial instruments in PostNord's Annual Report.

Note 7 – Definitions and alternative key-ratios

Alternative key ratios:

In the interim report, references are made to a number of financial measures that are not defined in accordance with IFRS. These measures provide supplementary information and are used to aid external stakeholders and management in their analysis of the Company's operations. Because not all companies calculate financial measures in the same way, these are not always comparable with measures employed by other companies. As a result, these financial measures should not be regarded as substitutes for measures as defined in IFRS.

Adjusted operating income Adjusted operating margin Total income less total costs, excluding items affecting comparability.

Adjusted operating income as % of net sales. Previously adjusted operating income as % of total income (net sales and other income).

Capital employed

Non-interest-bearing assets, less non-interest-bearing liabilities, also defined as net debt plus equity

EBITDAI

Earnings before interest, taxes, depreciations and amortizations/impairments.

Financial preparedness

Cash and cash equivalents and unutilized committed credit line.

I tems affecting comparability

Items affecting comparability are substantial, nonrecurring or directly attributable to operating activities. Examples of items affecting comparability include capital gains on the sale of assets, impairment of assets and provision for personnel redundancies employed under special employment conditions in Denmark. Ongoing restructuring costs are not regarded as items affecting comparability.

Net debt

Interest-bearing debt, pension provisions, less cash and cash equivalents, financial investments, financial receivables, that according to IAS 19 are included in non-current receivables and short-term investments.

Reconciliation with financial statements

	Jun. 30	Mar.31	Dec.31	Sep.30	Jun.30

 $^{^{1)}}$ Including assets under management. When the plan assets exceed the estimated present value of the pension commitments, they are recognized under the heading of Non-current receivables.

Net debt ratio

Net debt divided by equity.

Operating margin

Operating income as a percentage of net sales.

Return on capital employed (ROCE)

Operating profit for the 12 months to the end of the period (based on quarterly values) divided by average capital employed for the 12 months to the end of the period.

Other key ratios:

Average number of employees (FTE)

The total number of paid employee hours divided by the standard number of hours for a full-time employee during the cumulative period from the

Basic staff

Refers to all full- and part-time regular employees.

Earnings per share (EPS)

Share of net earnings attributable to parent company shareholders divided by the average number of shares outstanding.

²⁾ This amount is the portion of non-current receivables that is attributable to funded defined-benefit disability pension plans and defined-benefit pension plans measured in accordance with IAS 19.
